WHY CHOOSE JAGUAR AND LAND ROVER

“ At Jaguar Land Rover, we’re committed to developing vehicles with business customers in mind. That’s why some of the world’s largest corporations trust us to take care of their fleet and business needs.

With an appealing and comprehensive range of vehicles across both brands, our team of specialists are committed to delivering excellent customer service.

It’s time to seriously consider us for your fleet.”

A handwritten signature in black ink, appearing to read "Ken Forbes".

KEN FORBES GLOBAL FLEET & BUSINESS DIRECTOR
JAGUAR LAND ROVER

JAGUAR

Agile and powerful; sleek and seductive; confident and instinctive – select a Jaguar, and every journey becomes a pleasure, and an opportunity for your company to demonstrate that it's no ordinary business.

NEW JAGUAR XE

THE SPORTS SALOON REDEFINED

New Jaguar XE is everything you imagined a Jaguar to be – responsive, thrilling and beautifully engineered. Packed with innovations and refinements, XE rewrites the rules of how a compact saloon should behave.

NEDC2* Combined CO₂ Emissions from 130 g/km
Combined Fuel Consumption from 4.9
(up to 57.6) l/100km (mpg)

WLTP** Combined CO₂ Emissions from 146-161 g/km
Combined Fuel Consumption from 5.6-6.1
(up to 50.7-46.0) l/100km (mpg)

Compliant to the latest RDE2 emissions testing (removing the UK diesel surcharge of 4%, thereby reducing your company car drivers BIK liability). *The figures provided are NEDC2 calculated from official manufacturer's WLTP tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted. NEDC2 are figures calculated using a Government formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied. **WLTP is the new official EU test used to calculate standardised fuel consumption and CO₂ figures for passenger cars. It measures fuel, energy consumption, range and emissions. This is designed to provide figures closer to real-world driving behaviour. It tests vehicles with optional equipment and with a more demanding test procedure and driving profile.

JAGUAR XF

DISTINCTIVELY JAGUAR, XF'S ASSERTIVE
DESIGN STANDS OUT FROM THE CROWD

When your business prioritises both style and substance, you need Jaguar XF – the most premium and exciting business car of its generation. XF's award-winning design effortlessly blends versatility, design, dynamics and refinement.

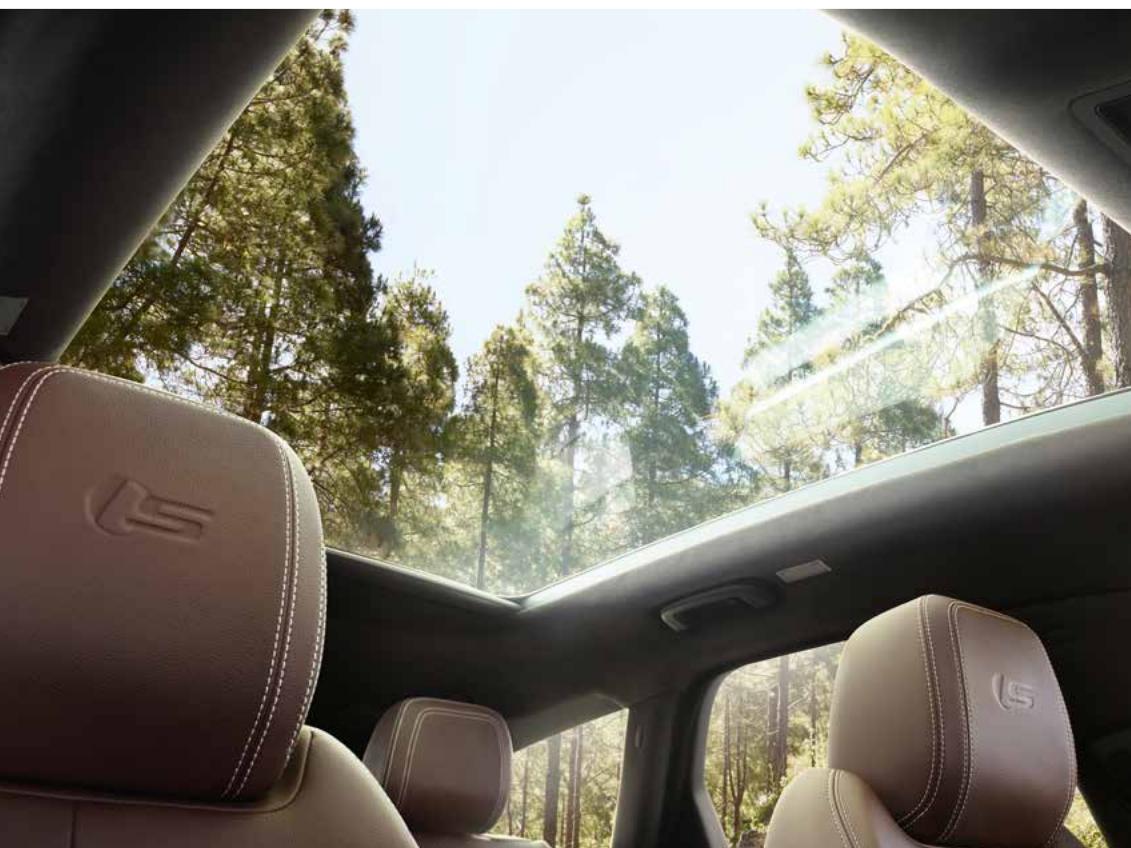

JAGUAR XF

NEDC2* Combined CO₂ Emissions from 124 g/km
Combined Fuel Consumption from 4.7
(up to 60.1) l/100km (mpg)

WLTP** Combined CO₂ Emissions from 147-159 g/km
Combined Fuel Consumption from 5.6-6.1
(up to 50.4-46.7) l/100km (mpg)

Compliant to the latest RDE2 emissions testing (removing the UK diesel surcharge of 4%, thereby reducing your company car drivers BIK liability). *The figures provided are NEDC2 calculated from official manufacturer's WLTP tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted. NEDC2 are figures calculated using a Government formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied. **WLTP is the new official EU test used to calculate standardised fuel consumption and CO₂ figures for passenger cars. It measures fuel, energy consumption, range and emissions. This is designed to provide figures closer to real-world driving behaviour. It tests vehicles with optional equipment and with a more demanding test procedure and driving profile.

JAGUAR XF SPORTBRAKE

NEDC2* Combined CO₂ Emissions from 135 g/km
Combined Fuel Consumption from 5.1
(up to 55.4) l/100km (mpg)

WLTP** Combined CO₂ Emissions from 156-162 g/km
Combined Fuel Consumption from 6.0-6.2
(up to 47.3-45.8) l/100km (mpg)

*The figures provided are NEDC2 calculated from official manufacturer's WLTP tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted. NEDC2 are figures calculated using a Government formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied. **WLTP is the new official EU test used to calculate standardised fuel consumption and CO₂ figures for passenger cars. It measures fuel, energy consumption, range and emissions. This is designed to provide figures closer to real-world driving behaviour. It tests vehicles with optional equipment and with a more demanding test procedure and driving profile.

JAGUAR E-PACE

JAGUAR'S FIRST COMPACT SUV

Jaguar E-PACE is dynamic and agile and has all the driving excitement of a coupé but with class-leading practicality.

NEDC2* Combined CO₂ Emissions from 143 g/km
Combined Fuel Consumption from 5.4
(up to 52.3) l/100km (mpg)

WLTP** Combined CO₂ Emissions from 174-187 g/km
Combined Fuel Consumption from 6.6-7.2
(up to 42.7-39.5) l/100km (mpg)

*The figures provided are NEDC2 calculated from official manufacturer's WLTP tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted. NEDC2 are figures calculated using a Government formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied. **WLTP is the new official EU test used to calculate standardised fuel consumption and CO₂ figures for passenger cars. It measures fuel, energy consumption, range and emissions. This is designed to provide figures closer to real-world driving behaviour. It tests vehicles with optional equipment and with a more demanding test procedure and driving profile.

JAGUAR F-PACE

OUR LUXURY PERFORMANCE SUV

F-PACE takes the pure Jaguar DNA of legendary performance, handling and luxury, then enhances it with class-leading space, practicality and an extended range of Ingenium powertrain options. No other vehicle blends enhanced fuel economy with sporting prowess like F-PACE.

NEDC2* Combined CO₂ Emissions from 140 g/km
Combined Fuel Consumption from 5.3
(up to 53.3) l/100km (mpg)

WLTP** Combined CO₂ Emissions from 158-175 g/km
Combined Fuel Consumption from 6.0-6.7
(up to 46.8-42.3) l/100km (mpg)

*The figures provided are NEDC2 calculated from official manufacturer's WLTP tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted. NEDC2 are figures calculated using a Government formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied. **WLTP is the new official EU test used to calculate standardised fuel consumption and CO₂ figures for passenger cars. It measures fuel, energy consumption, range and emissions. This is designed to provide figures closer to real-world driving behaviour. It tests vehicles with optional equipment and with a more demanding test procedure and driving profile.

JAGUAR I-PACE INTRODUCING JAGUAR'S FIRST ALL-ELECTRIC PERFORMANCE SUV

Jaguar I-PACE is ground-breaking, dramatic and feels like no other car on the road. Radical design cocoons an exquisite interior, while unrivalled driving dynamics match SUV levels of practicality - all with zero tailpipe emissions.

CO₂ Emissions g/km – 0
Range miles (km) – up to 258-292 (415-470)

The figures provided are as a result of official manufacturer's tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted. Options and their availability remain market dependent.

JAGUAR F-TYPE

POWERFUL, AGILE AND UTTERLY DISTINCTIVE.
A TRUE JAGUAR SPORTS CAR

F-TYPE is the pinnacle of Jaguar's long, distinguished heritage of combining exhilarating performance, accomplished handling and cutting-edge technology. Truly innovative advanced engineering delivers an exceptional driver-focused experience, powered by the most efficient engine ever found in an F-TYPE.

NEDC2* Combined CO₂ Emissions from 179 g/km
Combined Fuel Consumption from 7.9
(up to 35.8) l/100km (mpg)

WLTP** Combined CO₂ Emissions from 205-211 g/km
Combined Fuel Consumption from 9.1-9.3
(up to 31.2-30.3) l/100km (mpg)

*The figures provided are NEDC2 calculated from official manufacturer's WLTP tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted. NEDC2 are figures calculated using a Government formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied. **WLTP is the new official EU test used to calculate standardised fuel consumption and CO₂ figures for passenger cars. It measures fuel, energy consumption, range and emissions. This is designed to provide figures closer to real-world driving behaviour. It tests vehicles with optional equipment and with a more demanding test procedure and driving profile.

LAND ROVER

From business trips through smart city streets to touring holidays along rocky mountain trails, each one of these award-winning vehicles is ready for anything. Our range of capable SUVs offers unprecedented capability and composure for dynamic companies who want a fleet that's just as accomplished.

NEW DISCOVERY SPORT

THE VERSATILE COMPACT SUV

The vehicle that's designed around the driver. Versatile by design, the beautifully proportioned new Discovery Sport takes the instantly recognisable Discovery design DNA and hones it for striking visual impact. Innovative new features ensure you can tackle any environment with absolute confidence.

NEDC2* Combined CO₂ Emissions from 140 g/km
Combined Fuel Consumption from 5.3
(up to 53.3) l/100km (mpg)

WLTP** Combined CO₂ Emissions from 159-182 g/km
Combined Fuel Consumption from 5.9-6.7
(up to 47.8-42.0) l/100km (mpg)

*The figures provided are NEDC2 calculated from official manufacturer's WLTP tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted. NEDC2 are figures calculated using a Government formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied. **WLTP is the new official EU test used to calculate standardised fuel consumption and CO₂ figures for passenger cars. It measures fuel, energy consumption, range and emissions. This is designed to provide figures closer to real-world driving behaviour. It tests vehicles with optional equipment and with a more demanding test procedure and driving profile.

DISCOVERY

OUR MOST VERSATILE SUV YET

Discovery is synonymous with capability and versatility, whether off-road or in the city. A quantum leap forward in SUV design, combining the flexibility of a beautifully crafted full-size seven-seat interior with dramatic proportions, clean modern lines and a dynamic silhouette.

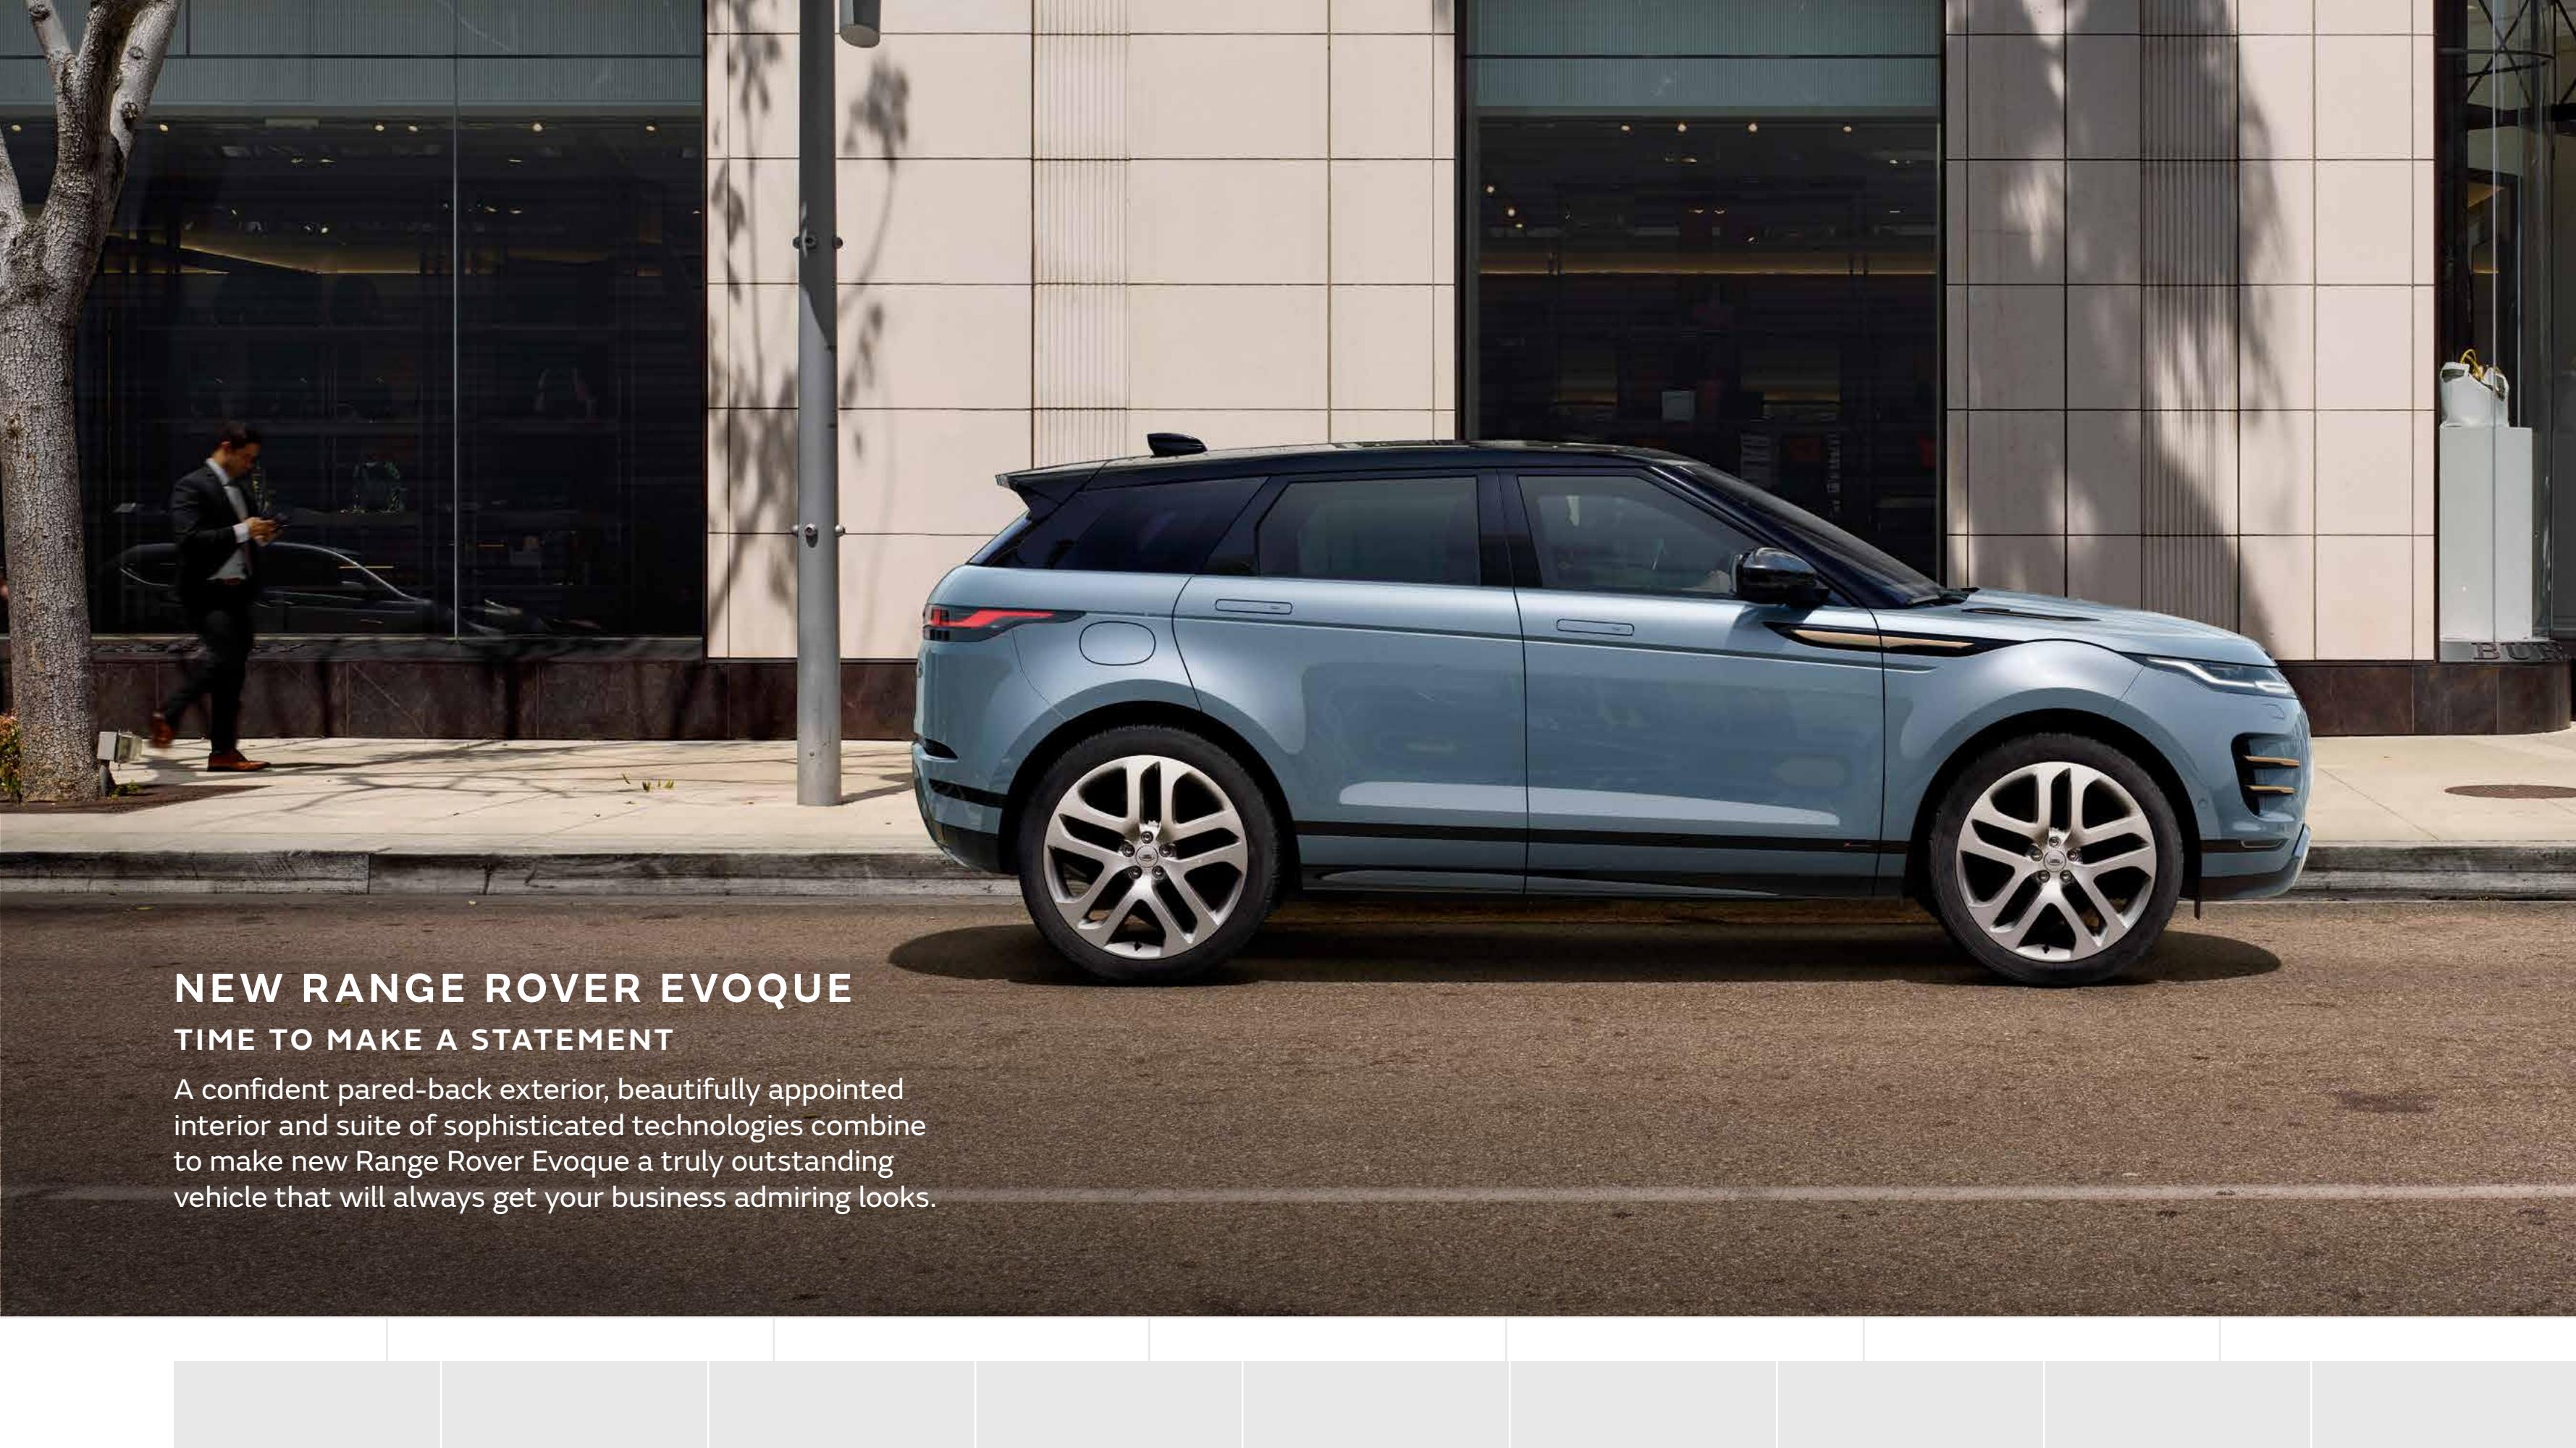

NEDC2* Combined CO₂ Emissions from 191 g/km
Combined Fuel Consumption from 7.2
(up to 39.2) l/100km (mpg)

WLTP** Combined CO₂ Emissions from 217-245 g/km
Combined Fuel Consumption from 8.3-9.3
(up to 34.1-30.2) l/100km (mpg)

*The figures provided are NEDC2 calculated from official manufacturer's WLTP tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted. NEDC2 are figures calculated using a Government formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied. **WLTP is the new official EU test used to calculate standardised fuel consumption and CO₂ figures for passenger cars. It measures fuel, energy consumption, range and emissions. This is designed to provide figures closer to real-world driving behaviour. It tests vehicles with optional equipment and with a more demanding test procedure and driving profile.

NEW RANGE ROVER EVOQUE

TIME TO MAKE A STATEMENT

A confident pared-back exterior, beautifully appointed interior and suite of sophisticated technologies combine to make new Range Rover Evoque a truly outstanding vehicle that will always get your business admiring looks.

NEDC2* Combined CO₂ Emissions from 143 g/km
Combined Fuel Consumption from 5.4
(up to 52.3) l/100km (mpg)

WLTP** Combined CO₂ Emissions from 165-176 g/km
Combined Fuel Consumption from 6.3-6.7
(up to 44.9-42.1) l/100km (mpg)

Compliant to the latest RDE2 emissions testing (removing the UK diesel surcharge of 4%, thereby reducing your company car drivers BIK liability). *The figures provided are NEDC2 calculated from official manufacturer's WLTP tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted. NEDC2 are figures calculated using a Government formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied. **WLTP is the new official EU test used to calculate standardised fuel consumption and CO₂ figures for passenger cars. It measures fuel, energy consumption, range and emissions. This is designed to provide figures closer to real-world driving behaviour. It tests vehicles with optional equipment and with a more demanding test procedure and driving profile.

RANGE ROVER VELAR THE AVANT-GARDE RANGE ROVER

The vehicle that takes sophistication, modernity and elegance to an unprecedented new level. Range Rover Velar is revolutionary, with a never-seen-before dedication to outstanding craftsmanship and materials evident in every elegant line.

NEDC2* Combined CO₂ Emissions from 152 g/km
Combined Fuel Consumption from 5.8
(up to 48.7) l/100km (mpg)

WLTP** Combined CO₂ Emissions from 177-196 g/km
Combined Fuel Consumption from 6.7-7.5
(up to 42.0-37.8) l/100km (mpg)

*The figures provided are NEDC2 calculated from official manufacturer's WLTP tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted. NEDC2 are figures calculated using a Government Formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied. **WLTP is the new official EU test used to calculate standardised fuel consumption and CO₂ figures for passenger cars. It measures fuel, energy consumption, range and emissions. This is designed to provide figures closer to real-world driving behaviour. It tests vehicles with optional equipment and with a more demanding test procedure and driving profile.

RANGE ROVER SPORT

THE MOST DYNAMIC RANGE ROVER

This is undoubtedly our most dynamic SUV ever. The performance and capability of Range Rover Sport is exceptional, its design cues are powerful and muscular, and its driving character confident and assured.

NEDC2* Combined CO₂ Emissions from 69 g/km
Combined Fuel Consumption from 3.0
(up to 94.2) l/100km (mpg)

WLTP** Combined CO₂ Emissions from 74-85 g/km
Combined Fuel Consumption from 3.3-3.8
(up to 86.9-75.3) l/100km (mpg)

*The figures provided are NEDC2 calculated from official manufacturer's WLTP tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted. NEDC2 are figures calculated using a Government formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied. **WLTP is the new official EU test used to calculate standardised fuel consumption and CO₂ figures for passenger cars. It measures fuel, energy consumption, range and emissions. This is designed to provide figures closer to real-world driving behaviour. It tests vehicles with optional equipment and with a more demanding test procedure and driving profile.

RANGE ROVER

THE ULTIMATE RANGE ROVER

Exemplary levels of comfort, peerless capability, and effortless sophistication. This is what the unrivalled design and craftsmanship of Range Rover brings to every journey. A remarkable vehicle, built with passionate attention to detail to be as striking on the outside as it is refined within.

NEDC2* Combined CO₂ Emissions from 72 g/km
Combined Fuel Consumption from 3.2
(up to 88.3) l/100km (mpg)

WLTP** Combined CO₂ Emissions from 75-85 g/km
Combined Fuel Consumption from 3.3-3.7
(up to 85.1-75.7) l/100km (mpg)

*The figures provided are NEDC2 calculated from official manufacturer's WLTP tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted. NEDC2 are figures calculated using a Government formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied. **WLTP is the new official EU test used to calculate standardised fuel consumption and CO₂ figures for passenger cars. It measures fuel, energy consumption, range and emissions. This is designed to provide figures closer to real-world driving behaviour. It tests vehicles with optional equipment and with a more demanding test procedure and driving profile.

THE NEW LAND ROVER DEFENDER CAPABLE OF GREAT THINGS

A Defender for the 21st century, this evolution of the legendary original has been redesigned for optimum durability. Featuring our toughest materials yet and tested to extremes, new Defender is capable by nature. Handle the urban jungle and beyond with confidence and unrivalled purpose.

NEDC2*

Combined CO₂ Emissions from 199 g/km
Combined Fuel Consumption from 7.5
(up to 37.7) l/100km (mpg)

WLTP**

Combined CO₂ Emissions from 230-248 g/km
Combined Fuel Consumption from 8.8-9.4
(up to 32.2-29.9) l/100km (mpg)

*The figures provided are NEDC2 calculated from official manufacturer's WLTP tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted. NEDC2 are figures calculated using a Government formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied. **WLTP is the new official EU test used to calculate standardised fuel consumption and CO₂ figures for passenger cars. It measures fuel, energy consumption, range and emissions. This is designed to provide figures closer to real-world driving behaviour. It tests vehicles with optional equipment and with a more demanding test procedure and driving profile.

Off-road sequences on dedicated land with full permissions. Challenging off-road driving requires full training and experience. Risk of injury and damage. Never drive beyond your abilities. Always check route, surface, base and exit before entering uneven terrain.

INNOVATIVE POWERTRAINS

Looking to the future, we've developed a range of powertrains that significantly reduce vehicle emissions and improve fuel economy yet maintain the capability and performance that Jaguar and Land Rover vehicles are synonymous with.

Whatever your requirements, our combined portfolio offers a versatile range of vehicles for your business. Our online comparison tool will help you select the ideal model and powertrain to suit your needs.

[> EXPLORE OUR VEHICLES](#)

CHOICE OF
POWERTRAINS

BATTERY ELECTRIC VEHICLES

Battery Electric Vehicles (BEVs) are powered solely by an electric motor and a high capacity battery to deliver high performance with zero tailpipe emissions.

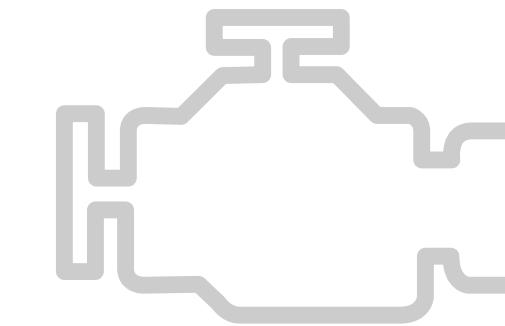

AVAILABLE JAGUAR MODELS:

- I-PACE

BENEFITS:

- Outstanding efficiency delivered by a high-tech Lithium-ion battery and advanced electric motors
- Zero tailpipe emissions
- A range of up to 292 miles (470km)*
- Instant and exhilarating acceleration, 400PS and 696Nm of torque

INGENIUM PETROL AND NEW DIESEL

All-aluminium engines maximise performance and environmental sustainability at the same time as driving down running costs.

Ingenium engines are also available with Mild Hybrid Electric Vehicle (MHEV) technology^{††}, which is one of the exciting powertrain options for new Defender. This system uses energy normally lost during deceleration to intelligently maximise engine efficiency.

AVAILABLE JAGUAR MODELS:

- New XE
- XF
- XF Sportbrake
- E-PACE
- F-PACE
- F-TYPE

AVAILABLE LAND ROVER MODELS:

- New Discovery Sport
- Discovery
- New Range Rover Evoque
- Range Rover Velar
- Range Rover Sport
- Range Rover
- New Land Rover Defender

BENEFITS:

- Lower CO₂ and Nitrogen Oxide emissions
- Reduced weight for enhanced performance
- Impressive torque for quicker acceleration
- Intelligent Start/Stop technology for improved efficiency
- All models are fully Euro 6 emission-standard compliant

PLUG-IN HYBRID ELECTRIC VEHICLES

Plug-in Hybrid Electric Vehicles (PHEVs) combine a lightweight conventional engine, together with an electric motor and a high capacity battery which is charged via an external source.

AVAILABLE LAND ROVER MODELS:

- Range Rover Sport P400e
- Range Rover P400e
- New Range Rover Evoque[†]
- New Discovery Sport[†]

BENEFITS:

- Ultra low CO₂ emissions
- 13kWh high voltage battery
- 7kW On-Board Charger
- Combined output of 404PS
- A full charge can be achieved in as little as 2.75 hours**

*The figures provided are as a result of official manufacturer's tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted.

**Charging times will vary by market, power supply and charging solution.

[†]Available later in 2019 as a Plug-In Hybrid Electric Vehicle (PHEV).

^{††}Only available on New Range Rover Evoque, New Discovery Sport and New Land Rover Defender. Automatic Transmission only. Market dependent.

EFFICIENT. FROM THE BOTTOM LINE UP.

At Jaguar Land Rover we understand the importance of Total Cost of Ownership (TCO) to businesses. That's why we consider TCO in the design and development of our vehicles right from the start.

This includes consideration of ongoing Service, Maintenance and Repair. We reduce servicing and repair requirements through the use of new technologies, synthetic lubricants, longer service intervals and ease of maintenance.

EFFICIENT.
FROM THE BOTTOM
LINE UP.

YOU'RE IN CONTROL

InControl is our as-standard suite of services and applications that keeps your employees connected seamlessly and securely with the outside world, navigates accurately, and even calls for assistance if required.

INCONTROL INFOTAINMENT

From calls, media and navigation, to climate control, driver settings and remote access via your smartphone, InControl brings the latest in seamless, intuitive connectivity.

InControl features, options and their availability remain market dependent – check with your Jaguar or Land Rover Retailer for local market availability and full terms. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected. Mobile network connectivity cannot be guaranteed in all locations. InControl Apps and Remote App will need to be downloaded from the Apple/Play Store. All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

INCONTROL CONNECTIVITY

Connect and Connect Pro give you unrivalled connectivity within your vehicle. They ensure that you and your passengers enjoy the journey and have a seamless in-car and out-of-car experience.

INCONTROL DRIVER ASSISTANCE

A range of standard and optional intuitive driving assistance features is available to help you maximise your driving experience in terms of both safety and efficiency. Features are designed to complement the demands of professionals and businesses alike.

THE FUTURE, TODAY.

With each new generation, Jaguar and Land Rover vehicles become more efficient, more connected, and more intelligent.

As part of our 2020 vision, every new Jaguar and Land Rover vehicle launched will be available with an electric powertrain. The future of motoring is here, and Jaguar Land Rover is leading the charge.

Electrified vehicles represent a compelling offer for your fleet. Each one a unique, refined electrified driving experience, helping you to achieve your environmental ambitions.

THE FUTURE,
TODAY.

CUSTOMER SATISFACTION AND PEACE OF MIND

You'll be given a dedicated Fleet & Business Sales contact who will assist you with every part of the decision-making process.

Fixed price service plans cover the full cost of routine servicing for the length of your chosen plan and provide reassurance that the vehicle is performing at its best. They also help to optimise the vehicle's Residual Value.

Once your Manufacturer Warranty expires, we offer an extended warranty for even longer lasting peace of mind.

ACCIDENT SERVICES

We'll go the extra mile to get drivers back behind the wheel quickly. We use only Jaguar or Land Rover Approved Body and Paint Centres and ensure vehicles are returned in a pristine condition.

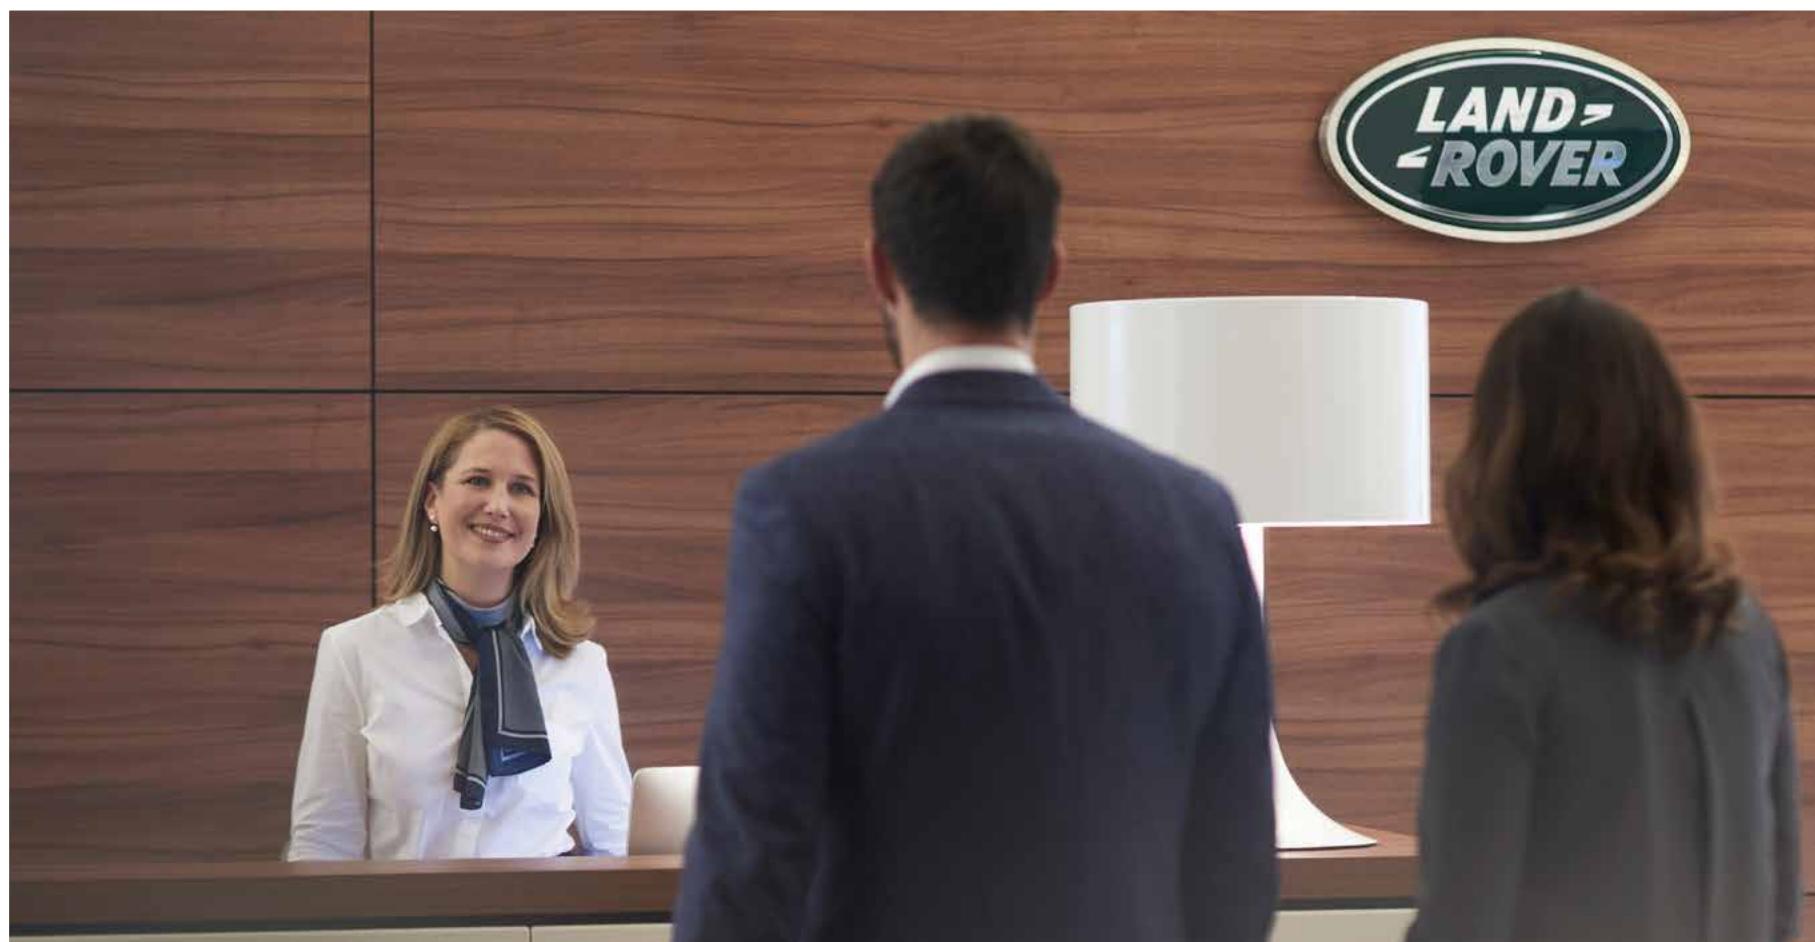

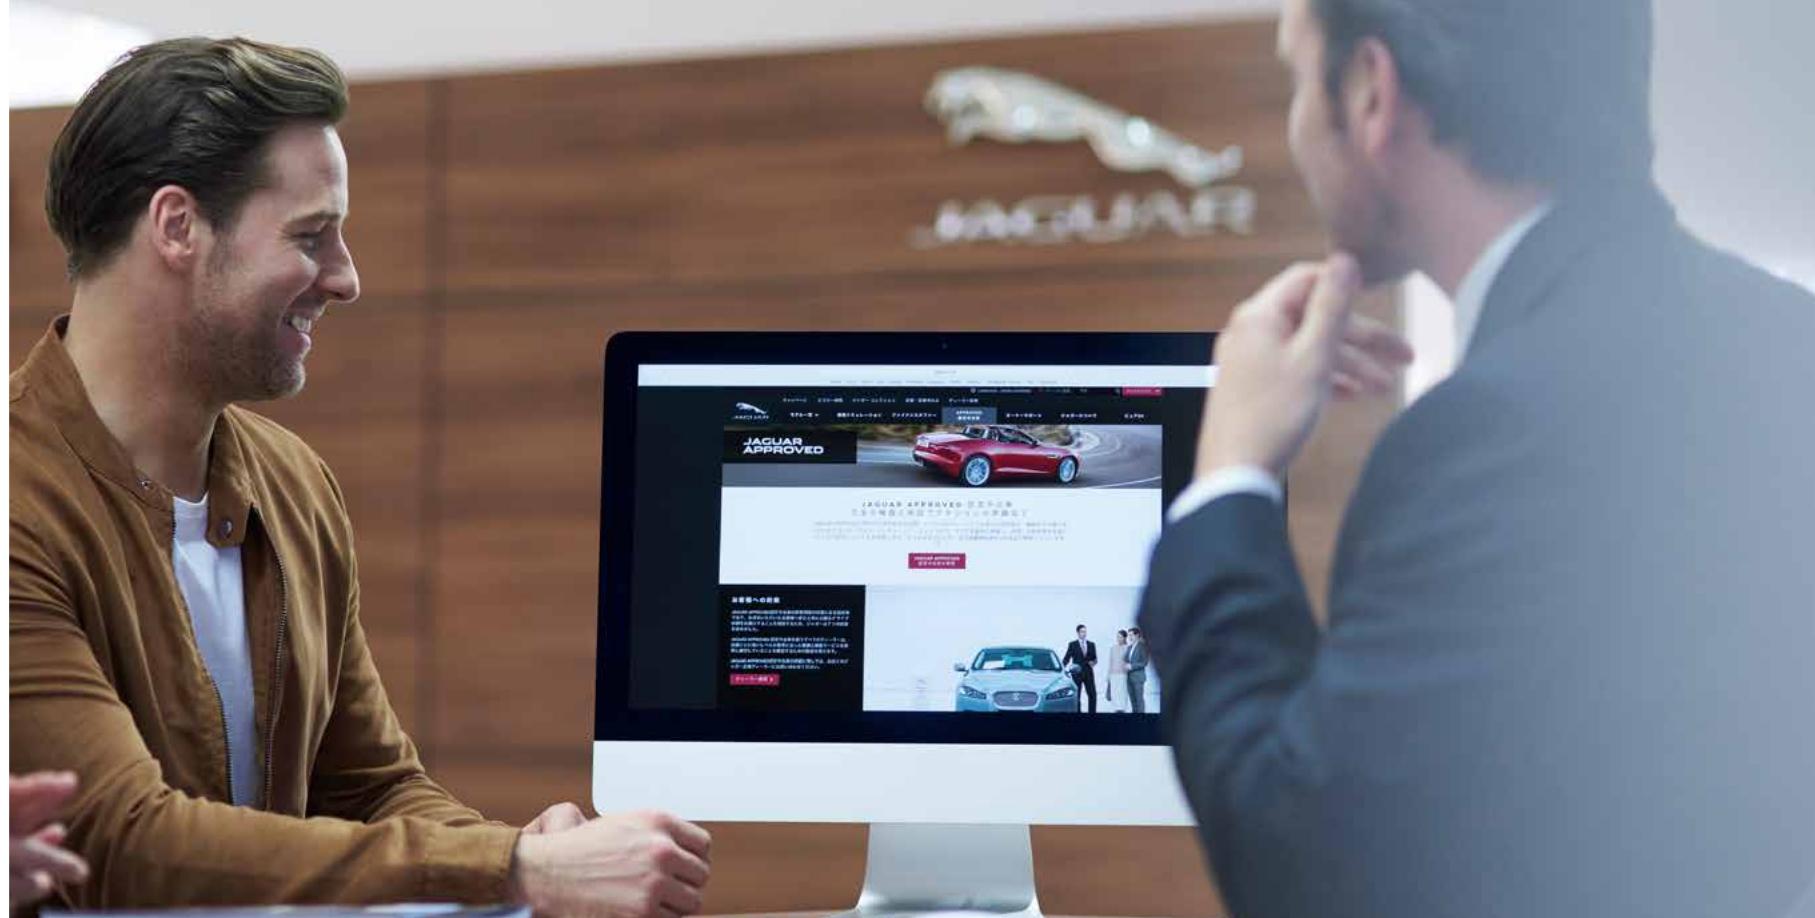

ROADSIDE ASSISTANCE

We offer emergency cover and support for all motoring emergencies from breakdowns to accidents. We ensure that your journeys, and your business, keep running smoothly, whatever the circumstances.

JAGUAR CARE

Jaguar Care makes owning a Jaguar vehicle easier than ever before by eliminating scheduled maintenance costs for the first three years of ownership, regardless of mileage (excluding wear and tear)*.

*Jaguar Care is available across most European markets excluding UK, Switzerland and Turkey, please check with your local Jaguar and Land Rover Retailers for market coverage and optional service plan availability.

GETTING IN TOUCH IS EASY

If you have a query for us to answer or are curious to hear more about what we can offer, don't hesitate to get in touch with our Fleet & Business Manager in your region.
